

# DELTA HAS BEEN DUMPED ON LONG ENOUGH.....IT'S TIME TO TAKE A STAND!

Have you figured it out yet? Deltaport expansion plans will lead to the industrialization of our community. Currently, we feel the impacts of hosting a two-berth port facility. If the Government has their way, Delta will be hosting a total of six berths.

- It's not rocket science.....*imagine* all those trucks, trains, ships.
- **Think about the air pollution.**
- The Gateway Project is all about moving port traffic.....*imagine* the loss of farmland **and** homes. **Think about** your tax dollars picking up the tab for infrastructure that benefits offshore bank accounts **and destroys Delta.**

The dominos are in line ... the first is falling - Deltaport's Third Berth ... the second is visible - South Fraser Perimeter Road ... and not far behind - a whole new 3-berth terminal (T2) = industrialized Delta. **Sav NO to any more expansion at Deltaport.**
